

# smartOCI Release Information 09032015

## Release Notes – smartOCI™

Released September 3rd, 2015

---

Vroozi is pleased to announce the release of smartOCI™ Admin version 2.2.550 and smartOCI™ Shopper version 2.2.550 with the highlights presented below.

We encourage you to tell us what you think by using [this feedback form](#) or by emailing us at [info@vroozi.com](mailto:info@vroozi.com).

## What's New

### Shopper UI Features

- Master Admins can now use HTML characters to create announcements, which are displayed to Shopper users in the "Announcements Widget" on the Shopper landing screen. Users can add the following HTML formatting features:
  - Paragraphs
  - Lists
  - Headings
  - General text formatting; including Bold and Italic
  - Hyperlinks

## Fixed Issues

### Shopper UI Features

- Fixed an issue where, once a "Shopper View Only" role would be deleted, they would continue to be able to access the system. This is no longer the case.

### Admin UI Features

- Resolved an issue where the "External Catalog" and "Direct Item Update" checkboxes would get checked, whenever the user would check the "select all" checkbox in the External Catalog Definition accordion.
- Resolved an issue, where users would not be able to delete an external catalog definition that had already been saved.

### General

- General bug fixes and performance enhancements.
